# Crew Timekeeping

Manage your customer database more efficiently than ever with Client Custom Fields. This tool provides even more ways for you to segment information by letting you create your own customized fields for your customers with the Job Dispatching module in Actsoft. Use it to easily create new ways to sort through client lists based on custom characteristics you define, and stay even more in tune with your customers' needs.

Crew Timekeeping app screen:

☑	Brian	Clocked out
☐	Brandon	Clocked out
☑	Tracy	Clocked out
☐	William	Clocked out
→	Lisa	Clocked in: 9/19/2020 8:12AM 0:34
☕	Jonathan	On break: 9/19/2020 10:06AM 0:09
🍴	Patrick	On lunch: 9/19/2020 12:35PM 0:45

Cancel · Submit

Features:

- Use Actsoft's mobile app to easily manage multiple time crew member's time entries and statuses at once.

- Add or remove crew members for increased flexibility and increased control over your personnel.

- Crew leaders gain valuable insights when reviewing their crew member list, such as their status (clocked in, clocked out, lunch, break), date and time of their last status event, and total clocked in time.

- Crew leaders can clock their respective crew members in and out from a single mobile device.

Benefits of Crew Timekeeping:

Increase Convenience
Manage multiple time entries from a single device.

Enhance Accountability
Make sure your business is operating at full capacity.

Gain Insight
Identify areas where resources can be optimized.

Boost Flexibility
Monitor changes in your workforce seamlessly on the fly.
